LogiLink®

LED Motion Sensor Strip

Art. No.: **LED005**

This battery powered motion sensing LED strip light is an easy way to illuminate your dark wardrobe, cupboards and underneath beds. No charging or wiring needed, just install the batteries, stick it on any place you want and turn the motion sensor on. Then the LED will activate via the motion sensor.

Features:
» Activates via motion sensor
» Lights up when people get closed and automatically turns off 15seconds after no motion is detected
» Easily use for lighting up inside wardrobes, cupboards, or underneath beds etc.
» Powered by 4 AAA batteries (not included)
» Easy to install; no charging or wiring needed
» Lights will flash when there is not enough power to support it

Article lamp photoelectric parameters:

Power (W)	LED Type	LED Qty (PCS/M)	Light Angle	CCT (K)	Luminous flux (lm)	CRI (Ra)	Strips Width	Strips length
2.4W	2835	30	120°	2700-6500	180±10%	>80	8mm	1M

LED Motion Sensor Strip

Art. No.: **LED005**

Sensor technology parameters:

Working voltage	DC 6V
Surface color	Milky coating
Shell material	ABS
Induction lens size	Ø12.5mm
Induction distance	2-5M
Angle of induction	100°
Delay time	15 sec
Blocking time	0.2 sec
Static power	50µA
Triggered	Repeatable
Operation temperature	-20°C~+35°C
Storage temperature	-25°C~+55°C (25°C is best-fit)
The working life of the contact	200000 times
Product dimension	137 x 27 x 20mm

137mm

27mm

20mm

Best Connectivity

RoHS compliant

Made in China

Installation:

1
4 AAA batteries

Install the 4 x AAA batteries into the sensor case.

2

Cut the required LED strip length according to the marking lines.

3

Connect the strip to the motion sensor battery case.

4
LED strips   sensor casing

Tear off the stickers on the back of strips and casing and fix them to the position you want firmly.

5
OFF O N   MANA UTO

Press down the power button above the sensor to switch on the power.

6
OFF O N   MANA UTO

Slide the switch on the side casing to "AUTO" mode.

7

In Auto mode, the LED strip will light up when people get closed and automatically turns off 15 seconds after no motion is detected.

⚠ Lights will flash when there is not enough power to support it!

Angle of Induction 100°	2-5m	Repeatable Triggered	Activated Motion Sensor	Strips Length 1m

Package Contents:
» 1 x LED Motion Sensor Strip
» 1 x User Manual

Package Informations:
» Packing Dimension: mm
» Packing Weight: kg
» Carton Dimension: 410 x 410 x 220mm
» Carton Q'ty: pcs
» Carton Weight: kg

RoHS compliant   C E
